

The powerful profile

system for all applications

The powerful profile system for all applications

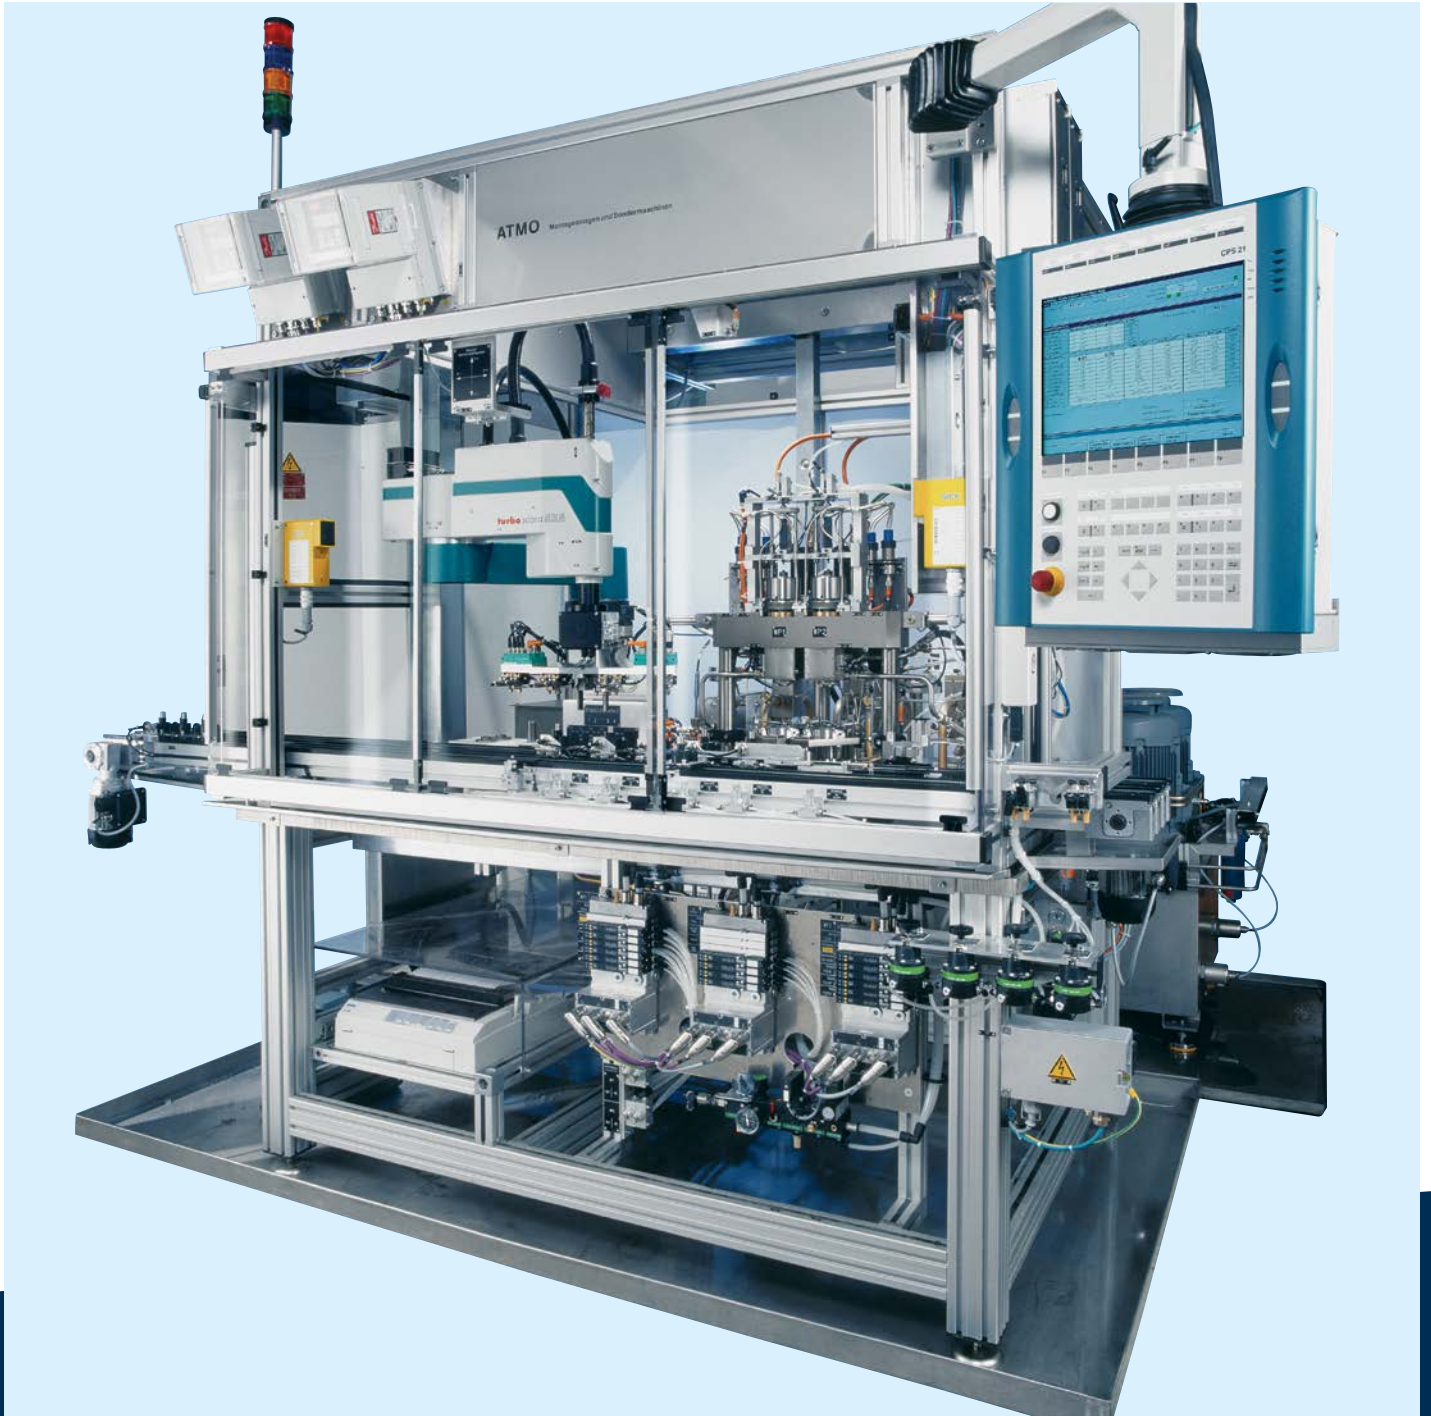

- Frames
- Machine enclosures
- Appliances
- Test fixtures
- Linear modules
- Workstations
- Transport shuttles
- Flow racks
- Furniture
- Process linking
- Protective barriers
- Your ideas

System construction

Flexible assembly line

Robot cell

Laser welding robot

Processing center

Flexible robot cell with transfer system

Tightening station for alternator production

Flexible line with transfer system and manual supply

Transparent enclosure for welding robot in battery cell production

Aluminum framing protective barrier with steel frames for hydraulic process station

Fully automated line, actuator production

Flexible assembly cell for timepiece production

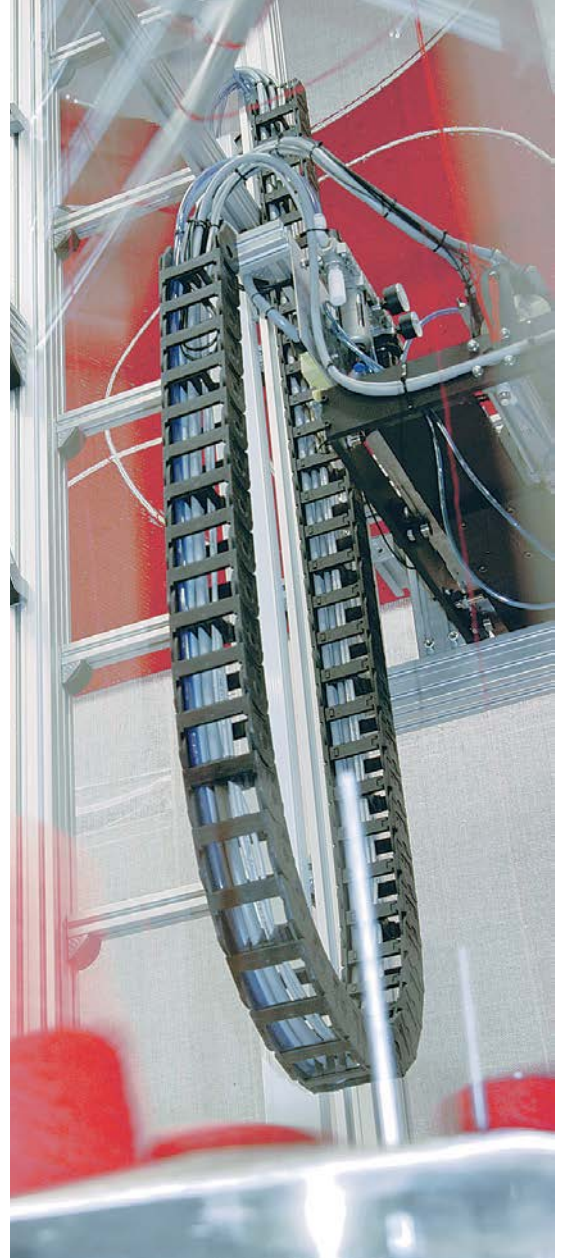

Flexible assembly cell with lift

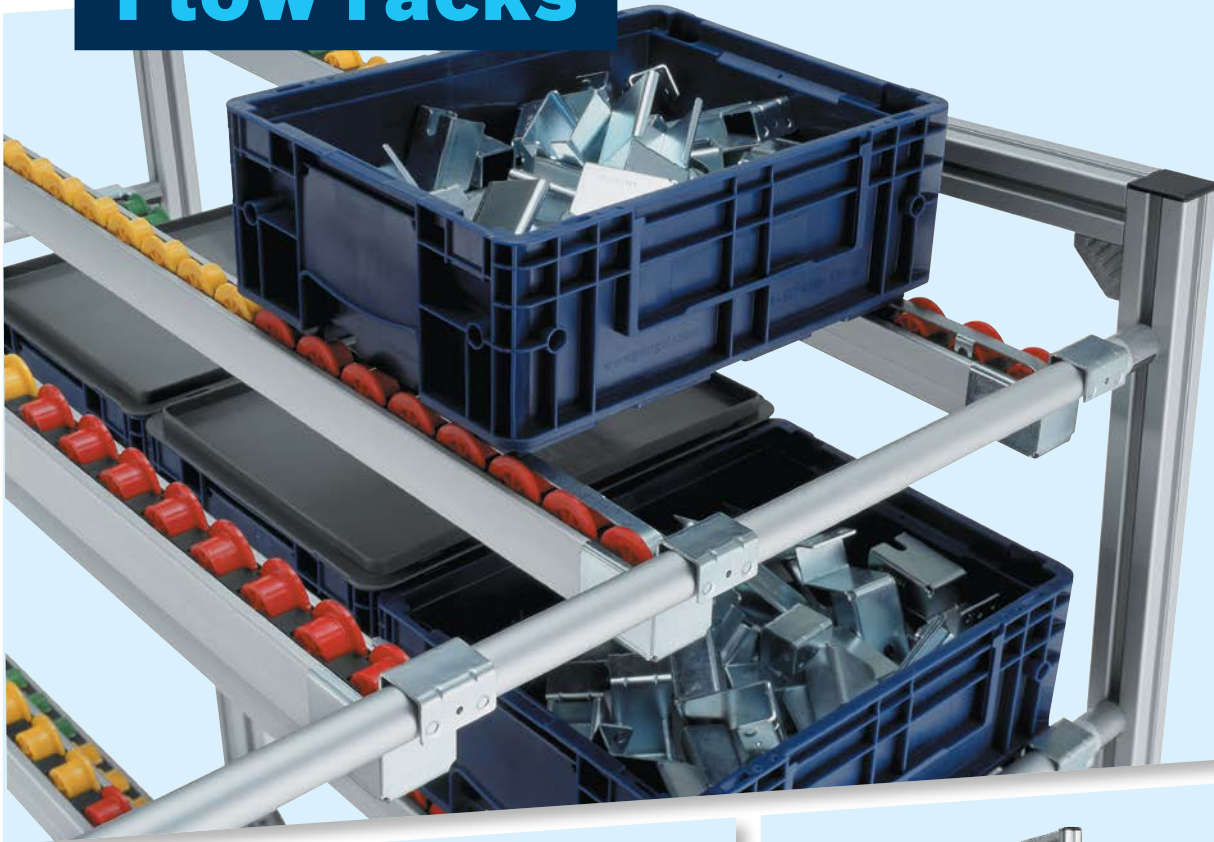

Rug-making robot

Walk-in tablet production for pharmaceuticals

Flow racks

Workstations and flow racks

Flexible assembly cell with lift

Kanban flow racks

Flexible workstation with dockable material shuttle

Workstations

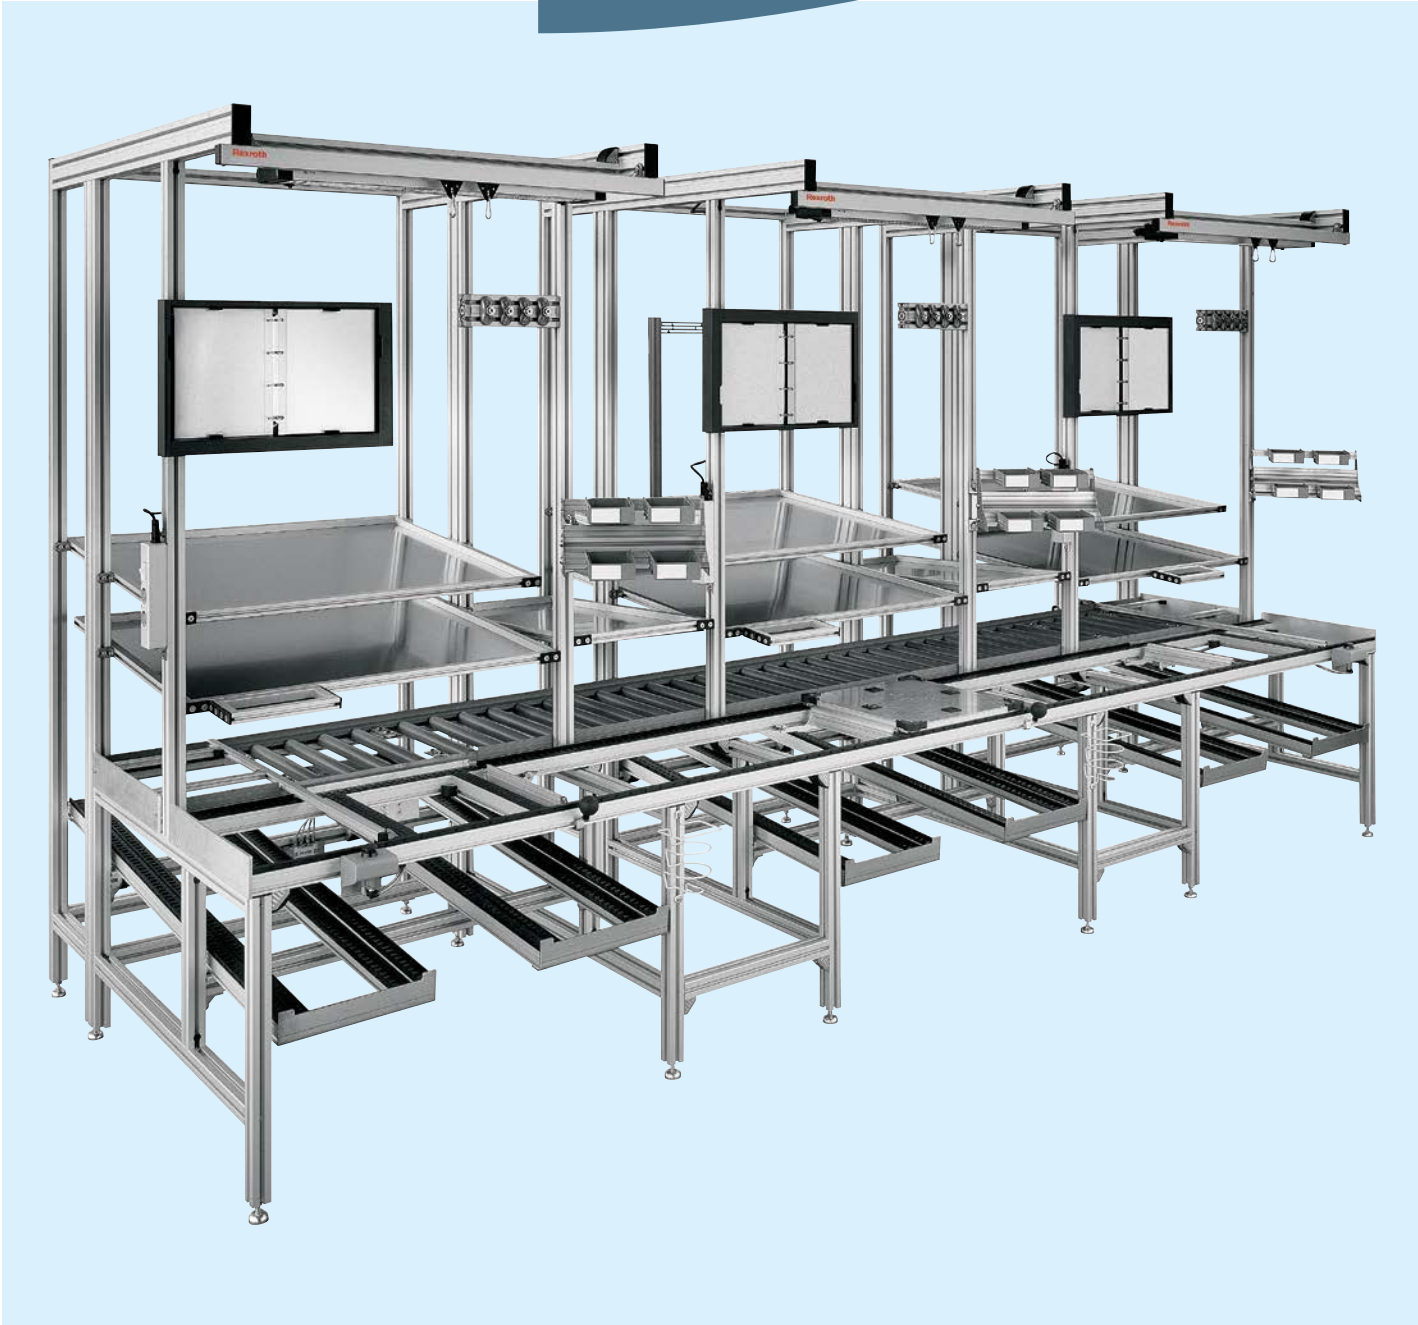

Packing table with final inspection for control units

ESD assembly of water-proof temperature sensors

Lean production with manual process linking

MPS workstation with manual process linking for burner assembly for water heaters

Lean production with manual process linking for angle grinder production

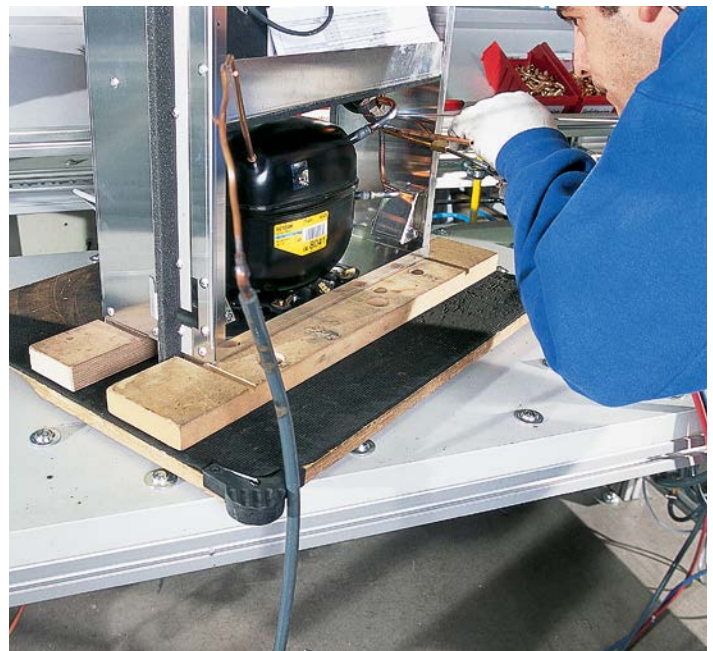

Assembly and test stands for precision cordless screwdrivers

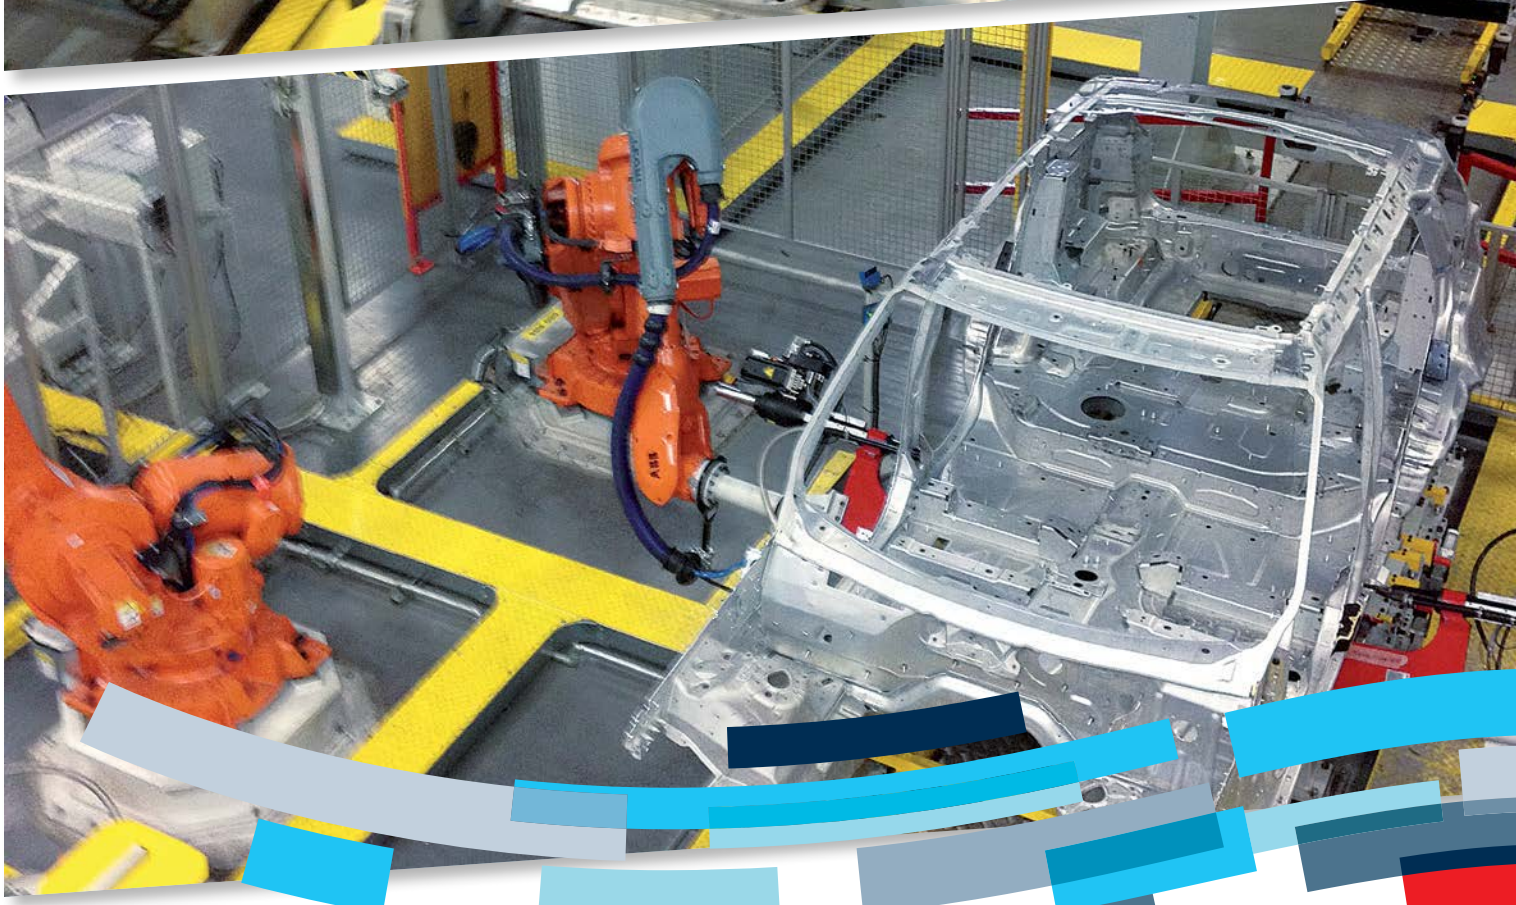

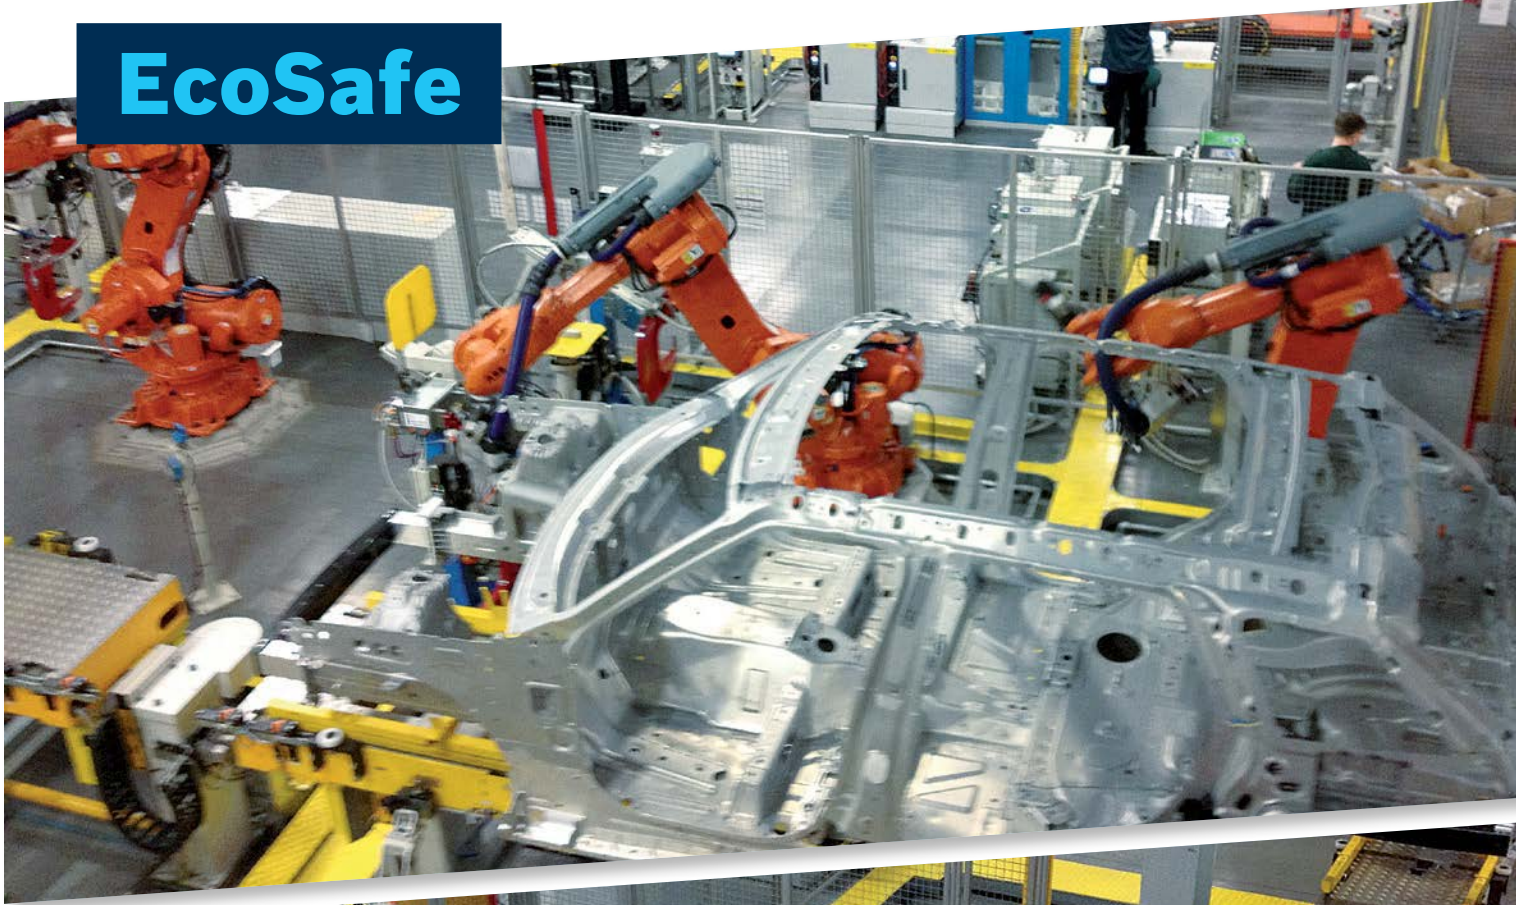

Precision sensor and electronic components series assembly

Manual assembly system for production of cooling units up to 75 kg weight and 2 m height

EcoSafe

EcoSafe protective fence

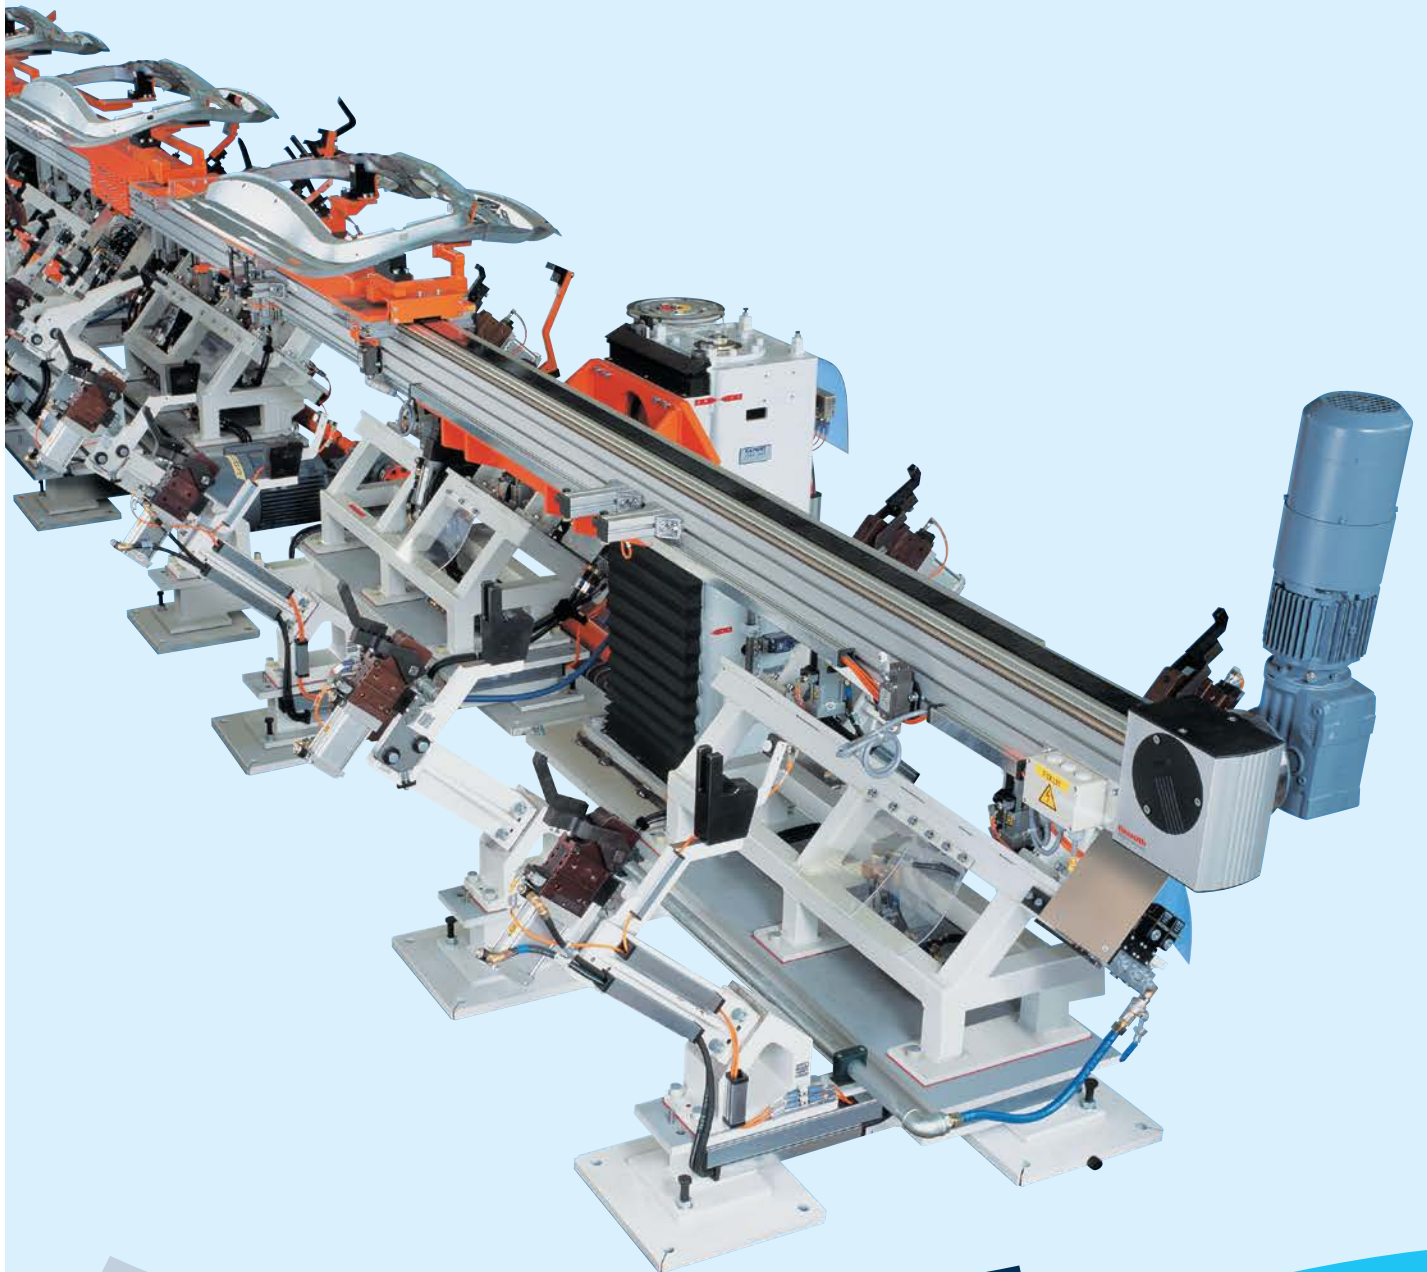

EcoSafe protective fence

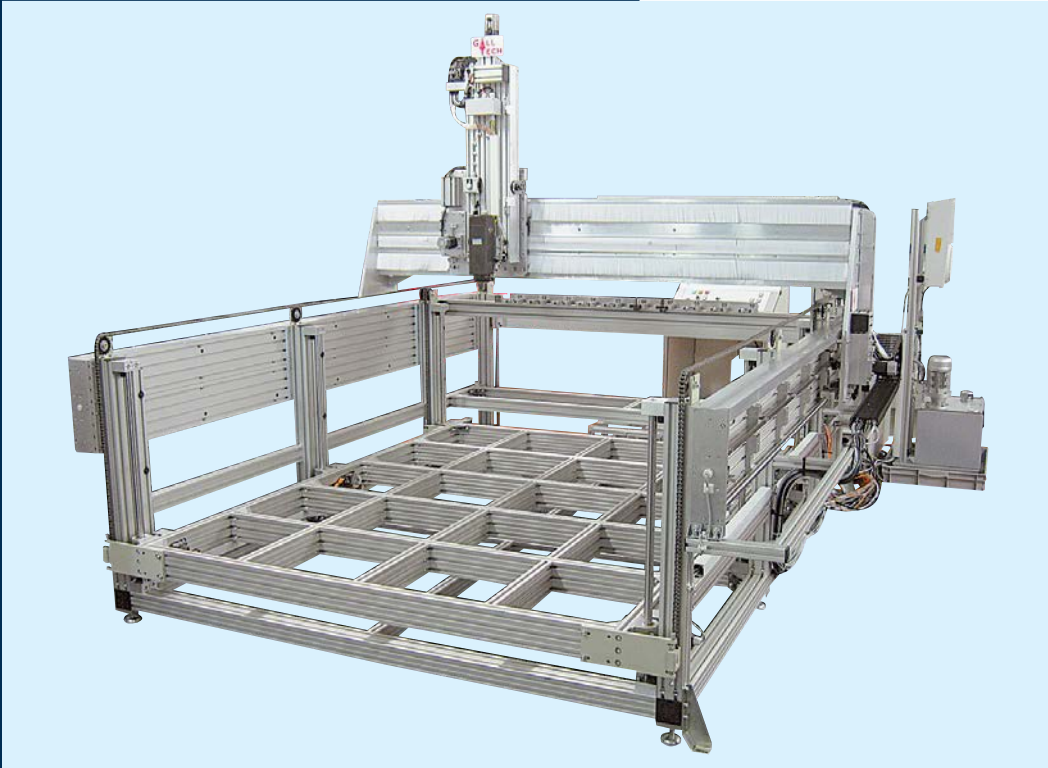

Fully automatic body assembly with the EcoSafe protective fence

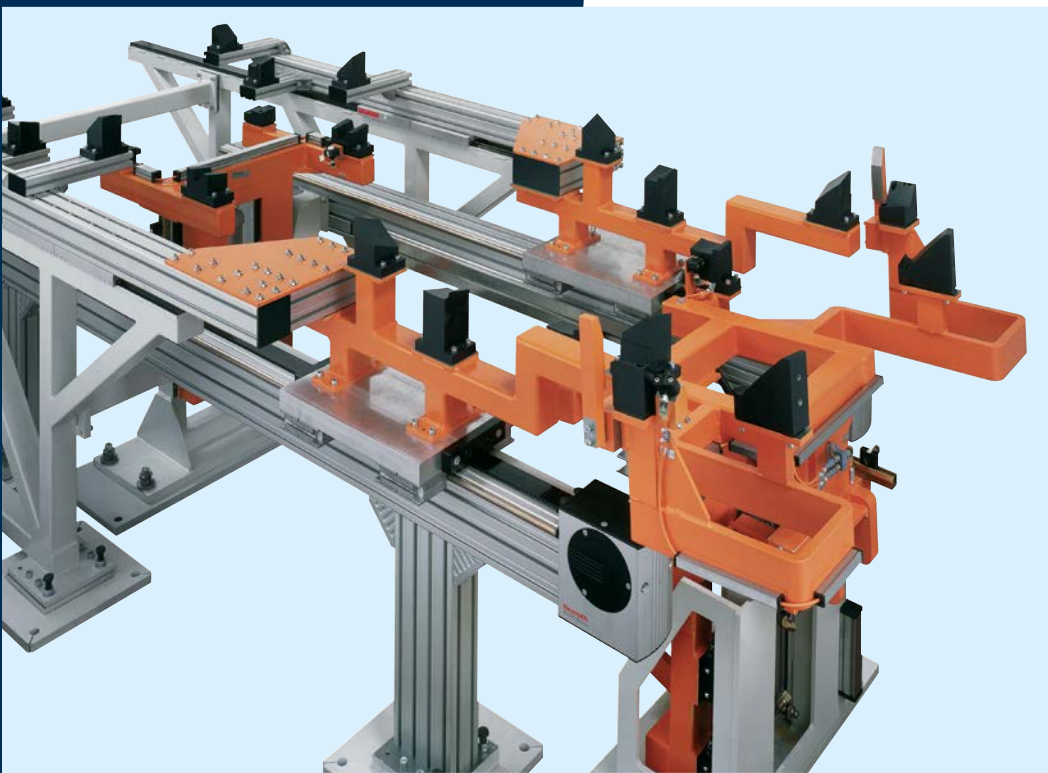

Linear guides

Linear guide for milling systems

Combination of cam roller guides (front) and linear guides with recirculating ball bearings (back) for automotive interior door assembly

Creative solutions

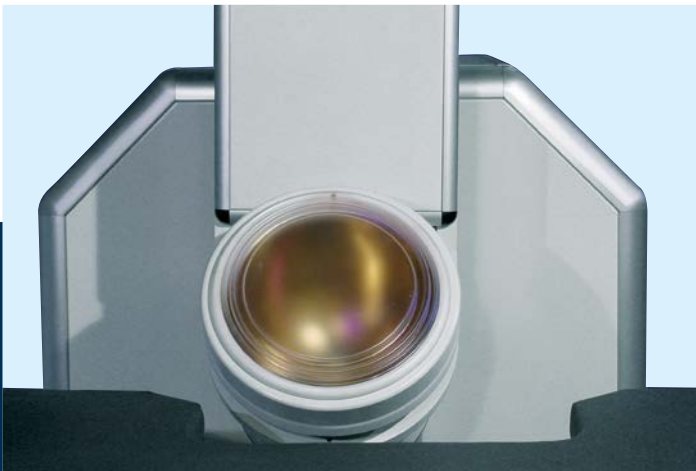

Flexible robot cell with transfer system

Tightening station for alternator production

Museum shop, Chicago Field Museum

Multi-functional operating table for non-invasive treatment of kidney stones

Bosch Rexroth Corporation

Corporate Headquarters
14001 South Lakes Drive
Charlotte, NC 28273
