Notice of Discontinuation – Apollo Series Radio Systems

Dear Valued Customer,

Evolution Motion Solutions – Mobile Electronics Manufacturing Group would like to inform you of an important update regarding our product offerings.

After careful consideration, we have made the decision to discontinue the sale and distribution of the Apollo Series radio remote control systems. **The final date to place orders for these products through Evolution Motion Solutions will be August 14, 2026.**

We encourage you to plan your purchasing accordingly to ensure your requirements are met prior to this last-time-buy date. Following this deadline, Evolution Motion Solutions will place a final bulk order for all Apollo systems on August 17, 2026. After this bulk order is placed, please allow approximately 4–5 weeks for delivery based on current lead times.

We understand this change may cause some inconvenience, and we sincerely apologize for any disruption it may create in your operations. We greatly appreciate your understanding as we continue to evolve our product portfolio.

We would like to take this opportunity to thank you for your continued trust and support throughout the years. Your business has been truly valued, and we are grateful for the relationships we have built.

Thank you again for your partnership.
